PROFESSIONAL SUMMARY

Motivated IT undergraduate at SLIIT with hands-on experience building full-stack web and mobile applications using the MERN stack, Java, and Spring Boot. Currently completing a frontend development internship at Sri Lanka Telecom (SLT), developing reusable UI components and collaborating in Agile teams. Passionate about clean code, intuitive interfaces, and continuously growing as a developer.

WORK EXPERIENCE

Frontend Developer Intern | Sri Lanka Telecom (SLT) | (6 months) (Remote)

- Developed and enhanced responsive web interfaces using React.js for the project.
- Integrated REST APIs and collaborated with backend services to implement application functionalities.
- Performed UI/UX improvements, bug fixes, and responsive design enhancements across multiple modules.
- Participated in project discussions, security testing using OWASP ZAP, and code quality reviews with SonarQube.

EDUCATION

BSc (Hons) in Information Technology | Sri Lanka Institute of Information Technology (SLIIT)

2023 Oct – Present

GCE O/Level | Ananda Shastralaya, Kotte | 2018

GCE A/Level | Ananda Shastralaya, Kotte | 2021

CERTIFICATIONS & TRAINING

Technical & Online

- Web Development - University of Moratuwa
- JavaScript Essentials 1 – Cisco
- Full-Stack Development 101 — Simplilearn
- Introduction to MERN Stack — Simplilearn
- Web Development using Visual Studio Code — Microsoft
- MongoDB CRUD Operations in Node.js — MongoDB
- MongoDB Data Modeling Path — MongoDB
- AI and Innovation: How MongoDB Enables a Resilient AI Strategy — MongoDB
- GitHub 101: GitHub for Beginners — GitHub
- AI Fluency: Framework & Foundations — Anthropic
- AI for Beginners — HP Life

Professional & Academic

- Certificate in Digital Marketing, Brand Management & Event Marketing — NIBM (2023)
- Certificate in Graphics and Multimedia — Advanced Technologies & Research Institute (2019)
- Special Practical English Certificate Course — Youth Empower (2018)
- Special Basic Computer Certificate Course — Youth Empower (2018)

TECHNICAL SKILLS

JavaScript	TypeScript	Java	React	Next.js	Node.js
Express.js	Spring Boot	Android	MongoDB	MySQL	Git / GitHub
Figma	Trello	Postman	REST APIs		

PROJECTS

SOCO (Scene of Crime Operations) – Sri Lanka Police — Next.js, React, TypeScript- MERN Stac Authentication

- Contributed to the development of a crime scene management system supporting officer management, crime visit workflows, court visit tracking, reporting, and vehicle management.
- Implemented multiple REST API integrations, developed responsive UI components, and enhanced system usability through frontend improvements and access control features.
- Worked on CVR workflows, crime scene management, officer management, vehicle configuration, and reporting modules.

UniGig – Freelance Marketplace for University Students — MERN Stack (MongoDB, Express, React, Node.js)

- A full-stack web platform enabling university students to post and find freelance gigs. Implemented user authentication, gig listing, and real-time notifications.

Auto Rent Hub – Car Rental Management System — MERN Stack

- End-to-end car rental platform with booking management, vehicle listings, and admin dashboard for fleet tracking.

Chat Web App – Real-time Messaging — MERN Stack, Socket.io

- Real-time chat application with private and group messaging, online presence indicators, and persistent chat history.

Smart Campus — React + Spring Boot

- Campus management system built with a React frontend and Spring Boot REST API backend, supporting student and staff portals.

Wellness Tracker — Mobile App — Android (Java/Kotlin)

- Android application for tracking daily health metrics including fitness goals, hydration, and sleep patterns.

Quick Task Management — Mobile App — Android (Java/Kotlin)

- Productivity app allowing users to create, prioritize, and track personal tasks with deadline reminders.

Sehera Promotional Apparels – Business Website — Web (HTML, CSS, JS)

- Freelance project: designed and developed a promotional business website with product showcase and contact features.

Shopping Cart – E-Commerce Web Application - MERN Stack, Google OAuth Authentication

- A full-stack e-commerce web application with product listings, cart management, and secure user authentication implemented via Google OAuth.

SOFT SKILLS

Teamwork · Leadership · Adaptability · Creativity · Problem Solving · Agile / Scrum Collaboration
