PROFESSIONAL SUMMARY

Motivated IT undergraduate at SLIIT with hands-on experience in full-stack development (MERN, Java, Spring Boot) and practical exposure to IT support, POS systems, and network/database administration through recent internships and on-site roles. Currently working as a Junior IT Executive at The Fashion Store, managing multi-branch IT infrastructure, POS systems, and hardware/network troubleshooting, with prior experience as a Frontend Developer Intern at Sri Lanka Telecom (SLT) using React.js, REST APIs, and Agile practices. Skilled in hardware troubleshooting, OS installation, peripheral configuration, and technical support, with additional experience in video/photo editing, graphic design, and social media management. Passionate about technology, creative problem-solving, and continuous learning.

WORK EXPERIENCE

Junior IT Executive | The Fashion Store (TFS) *September 2026 - Present (On-site)*

- Configured, deployed, and maintained laptop workstations, barcode scanners, and thermal receipt printers for multi-branch retail operations.
- Managed large-scale stock take workflows using Sphere POS, ensuring seamless synchronization
- Troubleshooted local hardware, OS, and network connectivity issues, including Azure DB latency/disconnects, TCP/IP configurations, and peripheral setup.
- Provided day-to-day IT support across branches, resolving software and basic hardware issues on desktops and laptops in a timely manner.
- Installed, configured, and maintained computers, printers, and office software to keep systems running smoothly.
- Managed software installations, updates, user access permissions, and email configurations for staff.
- Coordinated device setup, formatting, and general maintenance to support ongoing IT requirements across stores.
- Maintained accurate IT records and documentation for company devices and systems.

IT Intern | Road Development Authority - Information Systems & Network Management Division *20th July 2026 - 04th September 2026*

- Developed a Letter Management System, including search UI and filters, backend search queries, results listing, detailed view, and integrated file viewer features.
- Developed a Web-Based Tax Invoice System.
- Assisted in updating and maintaining the official RDA website.
- Provided assistance in the coordination and implementation of RDA Digitalization Workshops.
- Supported software development, testing, technical documentation, network management, and database-related tasks assigned by the division.

Frontend Developer Intern | Sri Lanka Telecom (SLT) *6 months*

- Developed and enhanced responsive web interfaces using React.js for the project.
- Integrated REST APIs and collaborated with backend services to implement application functionalities.
- Performed UI/UX improvements, bug fixes, and responsive design enhancements across multiple modules.
- Participated in project discussions, security testing using OWASP ZAP, and code quality reviews with SonarQube.

EDUCATION

- **BSc (Hons) in Information Technology** | Sri Lanka Institute of Information Technology (SLIIT) *Present*
- **GCE A/Level** | Ananda Shastralaya, Kotte *2021*
- **GCE O/Level** | Ananda Shastralaya, Kotte *2018*

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Java
Frontend: React.js, Next.js, HTML, CSS
Backend: Node.js, Express.js, Spring Boot, REST APIs
Databases: MongoDB, MySQL, Microsoft Azure SQL
Tools & Platforms: Git, GitHub, Postman, Figma, Trello, Sphere POS
Hardware & IT Support: Hardware Troubleshooting, OS Installation, Peripheral & POS Configuration, Network Support (TCP/IP)
Creative: Basic Video/Photo Editing, Graphic Design, Social Media Management

KEY PROJECTS

- **Security System for Sri Lanka Police** - *Next.js, React, TypeScript, MERN Stack.* Contributed to a security management system; implemented REST API integrations, responsive UI components, and access control features.
- **UniGig- Freelance Marketplace for University Students** - *MERN Stack.* Full-stack platform for posting/finding freelance gigs with authentication, gig listing, and real-time notifications.
- **Auto Rent Hub - Car Rental Management System** - *MERN Stack.* End-to-end car rental platform with booking management, vehicle listings, and an admin dashboard for fleet tracking.
- **Chat Web App - Real-time Messaging** - *MERN Stack, Socket.io.* Real-time chat application with private/group messaging, presence indicators, and persistent chat history.
- **Smart Campus** - **React, Spring Boot.** Campus management system with a React frontend and Spring Boot REST API backend supporting student and staff portals.
- **Shopping Cart - E-Commerce Web Application** - *MERN Stack, Google OAuth.* Full-stack e-commerce application with product listings, cart management, and secure authentication via Google OAuth.

CERTIFICATIONS & TRAINING

Technical: Web Development (University of Moratuwa) · JavaScript Essentials 1 (Cisco) · Full-Stack Development 101 & Intro to MERN Stack (Simplilearn) · Web Development using VS Code (Microsoft) · MongoDB CRUD Operations & Data Modeling Path (MongoDB) · GitHub 101 (GitHub) · AI Fluency: Framework & Foundations (Anthropic) · AI for Beginners (HP Life).

Professional & Academic: Digital Marketing, Brand Management & Event Marketing – NIBM (2023) · Graphics and Multimedia - Advanced Technologies & Research Institute (2019) · Practical English Certificate Course – Youth Empower (2018) · Basic Computer Certificate Course - Youth Empower (2018).

SOFT SKILLS

· Teamwork · Leadership · Adaptability · Creativity · Problem Solving · Hardware Troubleshooting · Technical Support
· Attention to Detail · Customer Service Orientation
